

Load Control Relay

DESCRIPTION / APPLICATION

This product is used to save energy or electricity in domestic households by passing either the stove or geyser. When using the stove, it won't allow the geyser to switch on until the stove is switched off, and vice versa.

MAIN TECHNICAL DATA

Rated Sensing Current for Stove	6A, 10A, 16A, 20A, 35A
Imax Amps for Geyser	35A
Rated Voltage	AC 220-240V, 50/60Hz
Mounting	DIN rail mounting, DIN 35mm
Connection Type	Terminal connection

DIMENSIONS(MM) AND WIRING
