## DESCRIPTION

Our industrial plugs and sockets are electrical connectors used in industry to safely deliver power to equipment. These connectors are designed to handle high voltage and current in harsher environments.

## PART NUMBER

**IPS-MN3502-32A-6**

## SPECIFICATIONS

|                                       |                                 |
|---------------------------------------|---------------------------------|
| <b>NUMBER OF POLES</b>                | 5 ( 3-PHASE + NEUTRAL + EARTH ) |
| <b>MAXIMUM OPERATION VOLTAGE</b>      | 400VAC                          |
| <b>MAXIMUM OPERATION CURRENT</b>      | 32A                             |
| <b>CABLE / CONDUCTOR SIZE</b>         | 4.0 TO 6.0mm <sup>2</sup>       |
| <b>EARTH PIN POSITION</b>             | 6H ( 6 O'CLOCK )                |
| <b>INGRESS PROTECTION / IP RATING</b> | IP67                            |
| <b>HARMONISED TARIFF CODE</b>         | 85.36.69.0000                   |
| <b>CERTIFICATION</b>                  | CE / ROHS                       |

## DIMENSIONS

## SAFETY NOTES

- DO NOT CONNECT OR DISCONNECT UNDER LOAD
- DO NOT IMMERSE IN LIQUIDS / FLUIDS
- DO NOT HANDLE WHEN WET
- DO NOT EXCEED ELECTRICAL PARAMETERS

## APPLICATIONS

- EQUIPMENT CONNECTION
- EXTENSION CABLES
- TEMPORARY SITE CONNECTION
